www.ericksonmachine.com

	Robotic Automation Solutions Materials Handling, Packing, Palletizing, Painting & Finishing, Welding		CNC Plasma Cutters Oxy-Fuel Cutting Machines
	Tube, Pipe, & Mandrel Benders, Sheet Metal Shears, Brakes, Notchers, Band & Cold Saws		USB Controllers USB Indexers
	CNC & Manual Machine Tools Lathes, Mills, Grinders, Drills, Saws, Punch Presses		Saw Blades, Sawing Machines, Cutting Fluids, Specialty Systems
	Hydraulic Ironworkers to Punch, Notch, Pipe Notch, Bar Shear, Angle Shear, Brake		Sheet Metal Brakes & Shears Laser & Plasma Cutters, CNC Punch Presses, Press Brakes, Guillotine Shears, Iron Workers
	CAM Software Products Milling, 3D Milling, Turning, & Wire EDM		Dual and Single Cylinder Hydraulic Ironworkers, Single-End Punches, CNC Plate Positioning Systems
	Computer-Aided Manufacturing (CAM) Systems for CNC Milling, Turning, Solids, EDM		Davis Keyseaters, Die Handlers, Die Carts
	High Speed/Precision CNC Swiss Style Turning Centers		CNC Turning & Machining Centers
	Single or Double Miter Saws, Scissor Style, Horizontal, Vertical, & Contour Band Saws, Cold Saws, Horizontal, Plate, & Gantry Saws.		Cutting tools for holemaking, indexable milling, and turning applications, and tooling systems.
	Vertical and Horizontal Milling and Turning Centers		WaterJet Machining Centers
	CNC Toolroom & Production Bed, Bridge, & CNC Knee Mills, Horizontal & Vertical Machining Centers, Slant Bed Turning Centers, Combination Lathes		Digital Readouts
	WaterJet Machining Centers		EDM Machines
	Vertical Machining Centers, CNC Turning Lathes, Drilling & Tapping		CNC Turning, Vertical Machining, 5 Axis Machining, Auto-loading
	Metal Bending Machines, Metal Forming Machines		5 Axis CNC Tool and Cutter Grinders

EMT SERVICE DEPARTMENT CAN PROVIDE SOLUTIONS!

Minimize Downtime with Preventative Maintenance

Reduce Machine Wear, Produce Better Parts with Leveling & Re-alignment and Barfeed Alignment

Detect Spring Fatigue before it damages Spindles & Tool Holders with Drawbar Tension Measurement

Trained Operators with customized Operator Training

Replace Turcite wear surfaces

Ensure against disaster with parameter backup

ONSITE REPAIR SERVICE

Service offered on any brand/model of machine tools

OFFERED AT OUR SERVICE CENTER

Fully-equipped 19,000 sq. ft. Story City, IA Service Shop

- Preventive Maintenance
- Backup Parameters
- Drawbar Tension Measurement
- Operator/Maintenance Training
- Leveling & Realignment
- Spindle Grind/Rebuild

- Servo System Diagnosis & Repair

Other on-site services include:

- Parts Processing*
- Lube System Service*
- Pneumatic Syst. Diag. & Repair*
- Control Programming*
- Ball Bar Testing*
- Barfeed Alignment*

- Machine Tool Reconditioning & Upgrade
- Turnkey installations and run-off
- Spindle Grinding & Rebuilding

ENGINEERING SERVICES

EMT offers engineering services that can streamline your processes!

- Process Applications for your parts
- Contract Control Programming
- Contract Operator & Process Training
- Robotics – analysis & design
- Fixture Design
- Process Time Studies
- Trimming Process Design, for plastics and metal stampings
